SUMMARY

Computer Science Engineering student with a strong interest in Backend Development, Data Science, and Generative AI. Skilled in Python, FastAPI, SQL, Git, and Data Analysis. Experienced in building API-driven applications and real-world projects. Currently learning DSA, FastAPI, and LLM-powered applications while working toward Software Engineering roles.

EDUCATION

NSRIT

B.Tech in Computer Science Engineering | CGPA: 9.1

2023 – Present

Visakhapatnam

Sri Chaitanya Junior College

Intermediate (MPC) | 96.4%

2021 – 2023

Andhra Pradesh

ZP High School

SSC | 92.6%

2020 – 2021

Andhra Pradesh

SKILLS

Languages: Python, Java, C

Backend: FastAPI, Flask, SQL

Data Science: NumPy, Pandas, Matplotlib

Web: HTML, CSS, JavaScript, React (Basics)

Tools: Git, GitHub, VS Code

Core Concepts: OOP, DBMS, Data Structures & Algorithms

PROJECTS

MediSlot | FastAPI, SQL, HTML, CSS, JavaScript

- **Problem Statement:** Managing doctor appointments manually leads to scheduling conflicts and inefficient patient-doctor coordination.
- **Solution:** Developed a healthcare appointment booking platform with appointment scheduling, slot management, authentication, and patient record handling.
- **Impact:** Streamlined appointment workflows through Fast APIs and structured database management.
- **Live :** medislots-z90w.onrender.com

TrackForge | FastAPI, SQL, JavaScript

- **Problem Statement:** Students often struggle to track study progress and internship/job applications efficiently.
- **Solution:** Built a productivity platform to manage study sessions, applications, authentication, analytics, and progress tracking.
- **Impact:** Improved organization of academic and career activities through centralized tracking and dashboard insights.
- **Live :** trackforge-mcx7.onrender.com

AI Smart Chatbot | Python, HTML, CSS, JavaScript

- **Problem Statement:** Users need quick and interactive responses without navigating multiple information sources.
- **Solution:** Developed an AI-powered chatbot capable of handling user queries through a conversational interface.
- **Impact:** Enhanced user engagement by providing real-time interactions and automated query handling.
- **GitHub:** github.com/jahnavipriya05/ai-smart-chatbot
